

## **Želvė Village & SPA**

Želvė Village & Spa is a unique forest resort located in a declining village of Želviai near Kretinga town.

Placed around a private pond, Želvė connects fresh, cosy and home-made cuisine restaurant, houses for guests' stays, a SPA, private events greenhouse as well as padel tennis courts.

Surrounded by one-hundred-year-old fir trees, Zelve creates the feeling of exclusivity and privacy. Being one with nature is one of our most important values.

Whilst building the complex throughout the year, we had an opportunity to see it change through the seasons.

When the heat and the sun of summer awakens all that is alive in the wilderness and everything is in bloom. When the ice of winter covers the surface of our private pond and makes you instantly feel like you are in a fairy tale similar to The Nutcracker. When all the trees are change their colour in autumn and suddenly everything looks like it is golden.
